ABOUT US

Singhania International Limited was established in 1995. Today, we are amongst the leading providers of high-quality fasteners for various industries and applications.

We manufacture a wide range of products, including nuts, bolts, screws, washers, anchors, and High tensile studs and threaded rods. Our products come in different materials, such as Carbon Steel, Brass, Stainless Steel and Bronze, to meet the diverse needs of our customers.

We also pride ourselves on providing exceptional customer service. We work closely with our customers to understand their unique requirements and provide customized solutions that meet their specific needs. Our fasteners cater to requirements of Automotive OEMs, Construction, Heavy Machinery, Wind Power, Solar Power, Defence and other critical applications.

QUALITY FIRST

IN-HOUSE TESTING

VISION OF OUR MANAGING **DIRECTOR**

To be an internationally recognised brand and a leading provider of high-quality fastening solutions, recognized for our commitment to quality, innovation, and customer service.

INFRASTRUCTURE & MACHINERY

Spread over 120000 sqft, our company is equipped with state-of-the-art infrastructure, machinery, and manufacturing facilities that enable us to produce high-quality fasteners efficiently and effectively, specific to the needs of our customers.

With a workforce of 250+, we have a team of highly skilled engineers and technicians who oversee the manufacturing process, ensuring that every fastener we produce meets the highest standards of quality and precision. We use cutting-edge technology to monitor our manufacturing process, from the raw material selection to the final inspection of the finished product, and ensure 100% traceability in all our fasteners.

Our manufacturing capabilities include forging (Cold and Hot), Stamping, CNC Machining, Robotic Welding, Heat treatment and Surface treatment. We have the expertise and resources to handle large production runs as well as small orders for customized fasteners.

INFRASTRUCTURE

LIST OF MACHINERY

Name of Machine	Size Range / Tonnage	No of Machines
Multi Station Cold Nut & Part formers	M4 to M20	8 Nos.
Multi Station Cold Bolt formers	M4 to M25	10 Nos.
High Speed Stamping Presses with Auto Coil and Strip feeders	25 Tons – 160 Tons	12 Nos.
Bell Annealing Furnace for Annealing wire coils and steel strips	6 Tons batch capacity	3 Nos.
Flat Die Thread Rolling Machines	M4 – M25	10 Nos.
Hydraulic Thread rolling Machines	M5 – M80	7 Nos.
Spring Washer Coiling and Cutting Section	M3 – M48	7 Nos.
Nut Tapping Machines	M4 to M27	11 Nos.
Nylon Washer Crimping Machines	M5 to M20	7 Nos.
CNC Turning Centers		2 Nos.
Hot forging Presses	M24 – M72	2 Nos.
Automatic bar end chamfering machines		3 Nos.
Semi Automatic Zinc plating Plant		6 Sets.
Hardening & Tempering Furnace	250 Kgs/Hour	1 Set
Induction Hardening & Tempering for round bars and Threaded bars	5mm – 28mm dia	1 m – 6m
Circular Saw with auto bar feeder	5mm – 80mm dia	1 No.
Tool room with Lathes, EDM, Hydraulic presse, Grinders, Milling, Drilling		12 Machines
Wire drawing Plant	1.5mm – 30mm	12 Machines
Wire Straightening & Cutting machines	5mm – 24mm dia	2 Nos.
Auto Bag/Kit packing machine		1 Nos.
Packing and Sorting Conveyor		1 Nos.

TEAMWORK

QUALITY CONTROL

At Singhania International Limited, we understand that quality control is crucial to ensuring that our fasteners meet the highest standards of performance, reliability, and safety. We have a dedicated team of experts and engineers who oversee the quality control process from start to finish.

Our quality control process begins with the selection of high-quality raw materials, which are sourced from trusted prime producers who meet strict global quality norms. Our team of experts then inspects the raw materials to ensure that they meet our specifications in terms of material strength, chemical composition, and durability. Once the raw materials are approved, they are sent to our manufacturing plant, where our team of skilled technicians and engineers oversee the manufacturing process.

Throughout the manufacturing process, regular inspection and testing is done to ensure that our fasteners meet high standards. Once our fasteners are manufactured, they undergo a final inspection & testing to ensure that they meet our customers' specifications and requirements.

Our testing and measuring instruments are periodically calibrated from reputed NABL accredited sources, ensuring further reliability of the test outcomes.

Testing outcomes to EN 10204 3.1 can be provided for all our products.

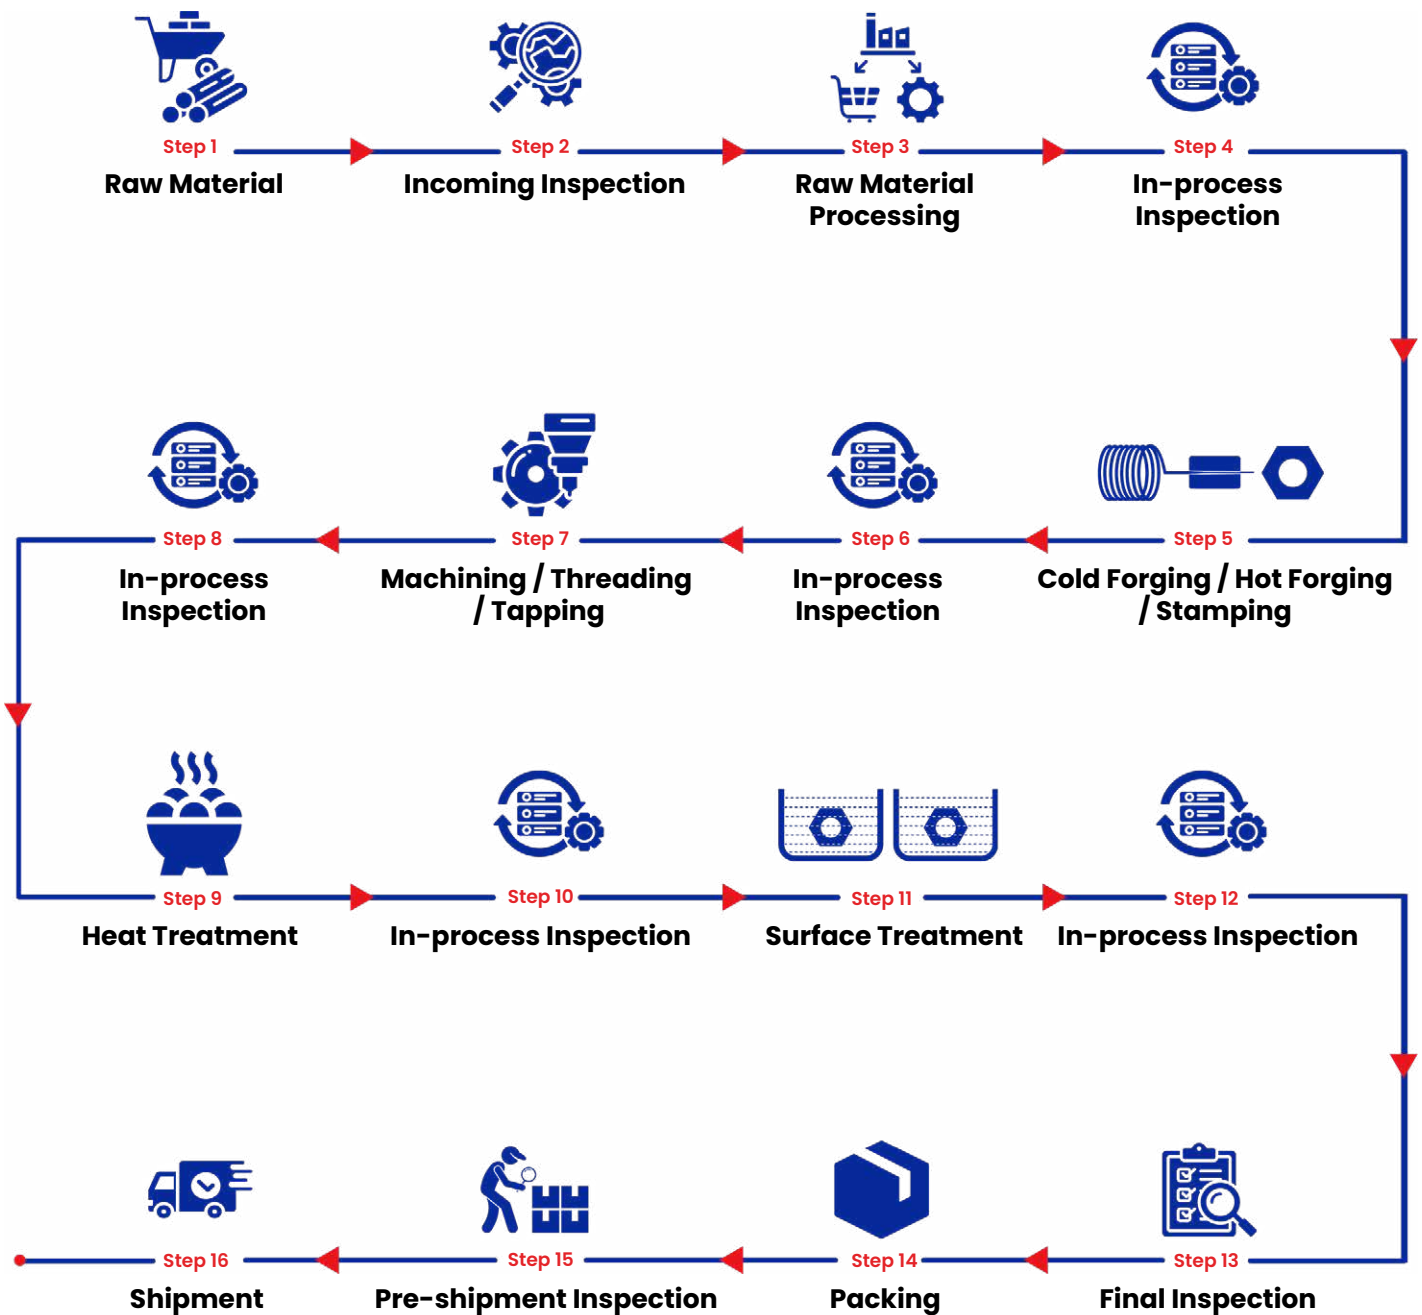

LIST OF LAB EQUIPMENTS

Name of Test Equipment	Specifications
Digital Hardness Tester	Rockwell cum Brinell
Micro Hardness Tester Digital	Micro Vickers
Computerised Universal Testing Machine	1000 kN
Impact Tester	
Spectrometer (Germany)	
Metallurgical Microscope with Image Analyser	
Profile Projector	
Salt Spray Test Chamber	
Coating Thickness Guage	
3D Printer	
Sample Cutting, Polishing & Molding m/c	
Precision Weighing Scale

MANAGEMENT SYSTEMS AND CERTIFICATIONS

At Singhania International Limited, we believe that effective management is critical to our success. We have a team of experienced and skilled managers who oversee our operations, ensure that our processes are efficient and effective, and drive continuous improvement throughout the organization.

Our management is committed to upholding the highest standards of quality, safety, and ethical behaviour. We have established a range of management systems (IATF 16949, ISO 9001, ISO 14001, ISO 45001), which we adhere to, and that enable us to achieve these goals.

(Government of India recognised star export house)

Our fastener assemblies are CE certified to EN 15048 and EN 14399.

In addition to our management systems, we have established a culture of continuous improvement throughout our organization. We regularly review our processes and procedures to identify areas for improvement, and we actively seek feedback from our customers to ensure that we are meeting their needs and expectations.

Overall, our management team and management systems are a critical component of our success as a fastener company.
